Introduction and consent

Enumerator introduction

Hello, my name is \${q://QID1/ChoiceTextEntryValue}, and I am calling from Africell on behalf of a University of Oxford research study about AfriGPT. AfriGPT is Africell's AI chatbot. We are speaking with Africell customers to understand how you use AfriGPT. This survey is voluntary and will take about 10 minutes.

Data collection, use, and sharing

1. **Data collection:** This survey asks you about your demographic information, and how you use AfriGPT.

Africell also collects other information on your activity. For example, if you send them an AfriGPT query, they keep the query, the AfriGPT response, the time of the message, the type of phone you use, and other information attached to your phone number. Africell and the research team will analyze the last three and the next six months of your AfriGPT conversations. We will connect this information to the questions in this survey.

2. **Data use:** We will use this collected data for research purposes. We will also use it to improve chatbots, to improve Africell's products and services, and to develop new products and services. This includes commercial applications and security purposes.
3. **Data sharing and publication:** Your data will be shared with Africell and the University of Oxford. Only Africell will be able to connect your name and phone number to your responses to this survey or the chat messages. If we publish any survey answers or chat messages publicly, we will remove any identifying information from these data. This will include your name, age, location; and also any private, identifying details you share.
4. **Data retention:** We may retain your data, including your administrative information, your answers to the survey, and your chat messages, for as long as necessary.

Privacy note

We will not use your data to identify you. We will remove information from your chats that could personally identify you before publishing the data.

Contact information

For any questions regarding your compensation, please contact _____. For any questions or concerns about the study, please contact _____ or email ethics@socsci.ox.ac.uk.

Informed consent for sharing interview answers

Do you agree to participate in this survey? If you agree, we will collect, use, and share your interview answers as described above.

- ☐ Yes, I agree that my interview answers may be collected, analysed, published or shared.
- ☐ No, I do not want interview answers to be collected, analysed, shared or published. I do not want to participate in this survey.
